

INSPIRED BRIDE SAVE THE DATE CARDS

How to Use.

Purchase white 4 x 6" cardstock that is thick enough that it can be printed on both sides, but thin enough that it will run through your home printer. Print the front card page of this PDF only in the quantity needed. Set the printouts aside to dry if necessary, then run through the printed cards, printing the back of the card as you did the front.

Note that home printers feed paper through differently. You'll want to test on a few cards prior to printing a large batch so that when you go to print the reverse side, it has the correct orientation.

This file is for personal use only and copyright belongs to Maddy Hague of the Inspired Bride. Please, do not redistribute or use for commercial purposes.
